

## **IsraelWise Profile**

In the past couple of decennia's, Israel has profiled itself in the Hi-Tech Development market. With 135 engineers per 10,000 employees, a number that by far exceeds that of any other country, Israel has the largest concentration of technology companies in the world, outside of California, and is home to more than 4,000 Hi-Tech companies and approx 2000 Start-up companies. Today, Israel is among the world leaders in the Hi-Tech / Start-up industry.

IsraelWise was established in 2002 with the intention to assist worldwide corporations to make a use of the Israeli innovative and technology market. We work with leading manufacturers, telecommunications, medical equipment manufacturers, communication technology providers, IT, software, trading firms, Venture Capital funds and other major institutes.
